General Classification.

Jersey for overall winner. Each individual race will have its own prize monies for minor places. This year we are running a General Classification over the 2 days of racing. The result of this classification will be the lowest points aggregate of an individual rider over the 2 races.

The points system will apply as per below:

Place	Points
1	1
2	2
3	3
4	4
5	5
6	6
7	7
8	8
9	9
10	10

Spares.

Spares in and spares out.

CRIT: Opposite the start finish line.

ROAD RACE. If you have wheels to put in please place them in the designated area along the outside fence on Edward Street in your designated race grading. **Remember if you are outside your race envelope and have a mechanical there will be another race behind you. You will get service. (Of course unless you are the last race)**

IMPORTANT:

Last year we had some issues from the show grounds caretaker and his concern for his tenants. This was regards to the speed of cars in the grounds and raising dust over the caravans. With the current weather dust should not be an issue this year but the speed of cars still will be. Speed limit will be **DEAD SLOW**. PLEASE be considerate to all the locals. Good venues for races are very difficult to get.

There will be only one way in and out of the show grounds. Turn into grounds and continue left around the back of the oval to the parking area. Please be considerate with all aspects of the show grounds usage and the locals.

NO entry or exit at Edward Street.

Feeding.

No feeding allowed for crit.

Road Race. A feed zone will be marked and located on Edward Street shortly before the rise and just after the finish line. Riders may only feed in races that are over 70km as no feeding in first 50km and last 20km.

Grade	Feeding
Elite Men's A	Start of lap 4 and 5
Elite Men's B	Start of lap 3 (only)
Men's masters A	Start of lap 3 (only)
